PLANT SELECTION WORKSHEET

This worksheet is a selection of possible plants that are known to thrive here in Utah. If you don't see what you are interested in, please include those ideas in the notes section. Mark the check boxes next to the plants that you are interested in. Please note that you are not committed to your selections here, but is a starting point for discussion. When you complete this worksheet click the **submit bottom** on the last page. Follow the prompts to email Duvall Landscaping a copy of your selections. You can also save it on your computer or print it out for reference during the project.
